

INKJET/LASERJET CARTRIDGES & CELL PHONES

A NRRA Cooperative Recycling Program

**It's Easy and FREE to Members looking to recycle
Inkjet, Laserjet, Fax Cartridges and Cell Phones.**

Print Cartridge Recycle.com, is a family-run business located in Auburn, Washington which buys empty laser toner, inkjet, fax cartridges, and used cell phones from individuals, groups, organizations, and companies. PCR then distributes them to remanufacturers all over the world. PCR can customize a cartridge buyback program or recycling fundraiser to fit your needs, and there is no cost to register! They provide all the materials necessary for collecting and mailing your empty printer cartridges and used cell phones from your home, office, or school. Please check their buyback lists to see which items they are currently accepting and how much they are paying for them. Since prices are constantly changing, please contact them for current buyback prices. All collection supplies are free, as well as the shipping.

PCR can pay you directly or donate the money in your name to the charity of your choice, or to your PTA at your local school to help fund their programs. They provide collection boxes, free shipping labels for the laser and fax cartridges, postage-paid inkjet boxes, and postage-paid envelopes for the return of individual inkjet cartridges or cell phones.

A check is then sent to you along with a printout of the cartridges and phones they received and the amount that they paid for each. Call PCR anytime regarding the status of your account. You may request payment at any time your account has \$25 or more.

**Please go to www.printcartridgerecycle.com for easy registration
and supply ordering.**

**You will deal directly with PCR. PCR accepts many cartridges – please visit their website
to print out their list. If you do not have access to a computer, please call NRRA at (603)
736-4401 for assistance.**
