PRESS RELEASE

NRRA School CLUB’s “NH Facilities Staff Recycler of the Year” Award

EPSOM, NH - The School CLUB of Northeast Resource Recovery Association (NRRA) is pleased to recognize Rick Griffith of Mason Elementary School of Mason, NH with the “2014-2015 NH Facilities Staff Recycler of the Year” Award.

Facilities Manager, Rick Griffith is proud of the green building techniques used at Mason Elementary such as: reclaimed and reused materials, flooring made of recycled materials, energy efficient lighting fixtures, energy saving heating sources that produce ash that is biodegradable and used to fertilize the grass. Due to all their recycling efforts, Mason Elementary was able to eliminate all dumpsters at the school. Mr. Griffith goes beyond this by offering free movie & popcorn nights for the students. He rewards the students with “Rick Bucks” for doing good deeds that are observed and reported by others. He even has a small shop where the “Rick Bucks” can be used to purchase small items. He was recognized for fostering a generation of caring, environmentally conscious students.

This award was presented at the NRRA School CLUB’s 6th Annual School Recycling Conference and Expo on June 9th at the Radisson Hotel in Manchester, NH. The Conference & Expo was a great opportunity for students, teachers and administrators to network and learn more about school recycling, to expand and increase the efficiency of their programs, to add recycling education to their curricula, exchange ideas, share philosophies, and further promote waste reduction efforts.

Special thanks to NH the Beautiful for sponsoring the School Recycling Conference and for their continued support of school recycling in New Hampshire.

The School Recycling Club (The CLUB) is a program for all schools in New England and is supported by NRRA and NH the Beautiful. For students and teachers in grades K-12, the CLUB serves as a centralized organization to become more active in the world of recycling. The CLUB is a fun and innovative way to give kids encouragement, direction and networking possibilities for school recycling programs. For more information visit www.schoolrecycling.net.

The Northeast Resource Recovery Association (NRRA) is a proactive, non-profit organization that has worked for over 30 years with its membership to make their recycling programs strong, efficient and financially successful. For more information visit www.nrra.net.

New Hampshire the Beautiful, Inc. (NHtB) has been a longtime supporter of the NRRA School CLUB and environmental education in NH. NHtB is a private non-profit charitable trust founded in 1983 and supported by the soft drink, malt beverage, and grocery industries of New Hampshire. NHtB offers municipal recycling grants, recycling education grants (over \$2.5 million), recycling signs, anti-litter programs, and technical assistance. NHtB is a unique organization that represents a voluntarily-funded alternative to expensive legislation intended to achieve the same end results. <http://www.nhthebeautiful.org/>
